

Chain of Custody (CoC) form

FO-34v6 | March 2027

Provide a Purchase Order and notify the Frog lead before sending the sample.
Include this chain of custody form with every sample submitted.

Frog reference	FC	Client PO	
Service required	Settlement & Flocculant Validation Test NTU: TSS Correlation curve		
TSS limit for site (default will be 40mg/l)	100mg/l	80mg/l	60mg/l
Customer	40mg/l Other		
Site name			
Sample location (grid reference)			
Client email to receive report			
Date of sampling			
Notes			
Include this form with every sample submitted			

IMPORTANT: submission of clean, non-contaminated soil and water samples only

- The settlement test determines the settlement characteristics of "non-contaminated" soils & efficacy of Gel Flocculant.
- Samples taken from **Contaminated Land** must NOT be submitted.
- Contaminated samples may present a serious health hazard to the courier, all handlers and laboratory
- Testing does NOT include testing for any chemical influence that may bind to the sediment, leach from soil or be held within the water column
- If in doubt, discuss in advance with Frog.

For internal use
