Include this form with every sample submitted			

## IMPORTANT: SUBMISSION OF CLEAN, NON-CONTAMINATED SOILS / WATER SAMPLES ONLY

- The settlement test determines the settlement characteristics of "non-contaminated sediments and silts as well as the efficacy of Clearflow Gel Flocculant.
- Samples taken from **Contaminated Land** should NOT be submitted. Contaminated samples may present a serious health hazard to the courier, all handlers and laboratory.
- Testing does NOT include any chemical or biological parameters that may bind to the sediment, leach from the soil or be held within the water column.
- If in doubt, discuss in advance with Frog Environmental technical team
